# Small and Medium-sized Enterprise Development

ADB Lecture Series at
Asia Pacific Finance and Development Institute
Shanghai, PRC, 16 May 2016

Ying Qian
Director, Public Management, Finance and Regional Cooperation Division, East
Asian Department
Asian Development Bank

### **Outline**

- Definition of SMEs
- Is "finance" really the key problem for SME
  - **Development?**
  - Impediments to SME development
  - Business development services
- Recognize that not all SMEs survive and grow
  - ☐ Facilitating easy entry/exit

- SMEs still need access to Finance!
  - Alternative sources
  - Challenges in access to finance
  - New financing techniques
- Changing the global SME scene
- Case studies

# **Definition of SMEs (1)**

- No standardized definition of SMEs across country
- SMEs defined by law or policy guideline at the national level
- Four major criteria by law: (i) number of employees, (ii) asset, (iii) turnover, and (iv) capital
- SME policy design relies on national definition

# Definition of SMEs (2)

# **SMEs' Economic Contributions**

# Is "finance" really the key problem for SME development?

- Financial sector's willingness/capacity to lend
- SME's ability to borrow
  - Business plan?
  - Accounts?
  - Paying tax?
  - ☐ Cash flow projection?
  - □ Collateral?

## Impediments to SME Development

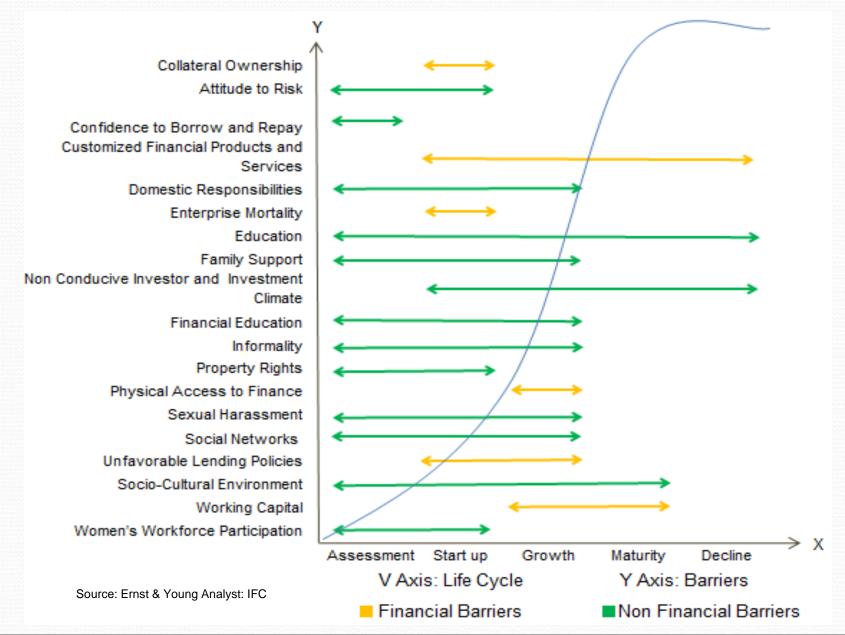

#### Internal factors

- Lack of entrepreneurial experience
- Shortage of skilled labor
- Overall financial literacy
- ☐ Financial management, accounting and business management skills
- Lack of marketing skills

#### External factors

- Lack of support for start-ups and early stage firms
- Lack of access to affordable business facilities
- Regulatory requirements and taxation
- ☐ Limited markets with limited customer base, especially in rural areas
- Access to finance

## Constraints faced by Women-owned SMEs

# **Business Development Services (BDS) (1)**

#### **Factors of SME Needs in BDS:**

- (i) **Demand-side**: geographical situation, consumer attitudes, purchasing power, politics and governance.
- (ii) **Supply-side**: skills, networks, access to resources, infrastructure, information availability, government regulations and policies

#### Criteria for BDS services:

- (i) outreach,
- (ii) efficiency,
- (iii) effectiveness, and
- (iv) sustainability

# **Business Development Services (BDS) (2)**

- Clustering (horizontal and vertical) and networking can facilitate access to knowledge sharing spillovers, achieve economies of scale and scope.
- Business incubators/programs can fill the gaps through rudimentary training, a space to launch the business, and sharing of business contacts.

#### **BDS Instruments**

#### 1. Micro Level

- (i) Training
- (ii) Extension, consultancy and counselling
- (iii) Developing commercial entities
- (iv) Technology development and transfer
- (v) Information i.e., Trade fairs and exhibitions
- (vi) Business linkages i.e., subcontracting, franchising, business clusters and collaborative production networks

#### 2. Meso Level

- (i) membership organizations
- (ii) service delivery organizations
- (iii) commercial organizations

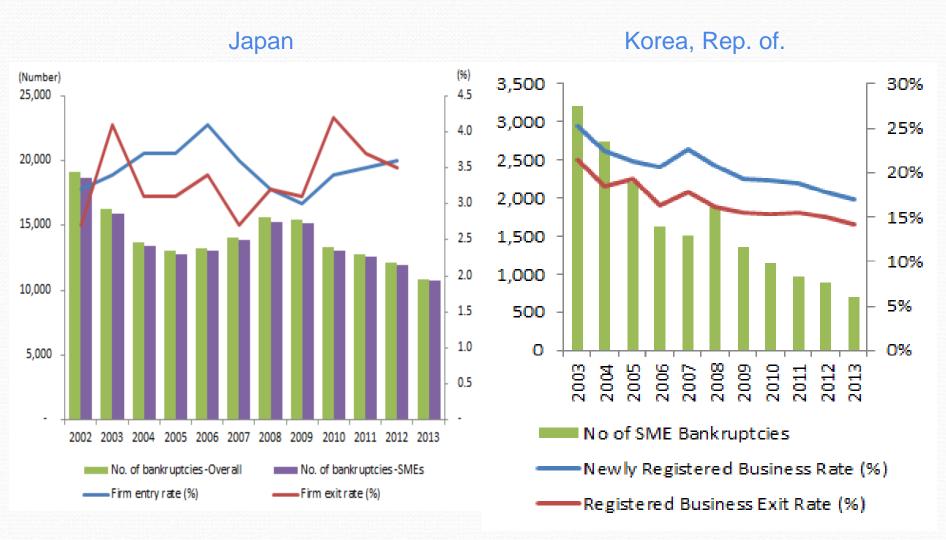

#### 3. Macro Level

- (i) setting up national SME agencies
- (ii) supporting conferences, meetings and publications
- (iii) establish regulatory committees
- (iv) decentralize SME development policies
- (v) support for national and local dialogue
- (vi) improved procedures for SME access to public tenders, exports and bank credits.
- (vii) develop conducive environment for SME dev't
- (viii) strengthen advocacy capacity of trade associations

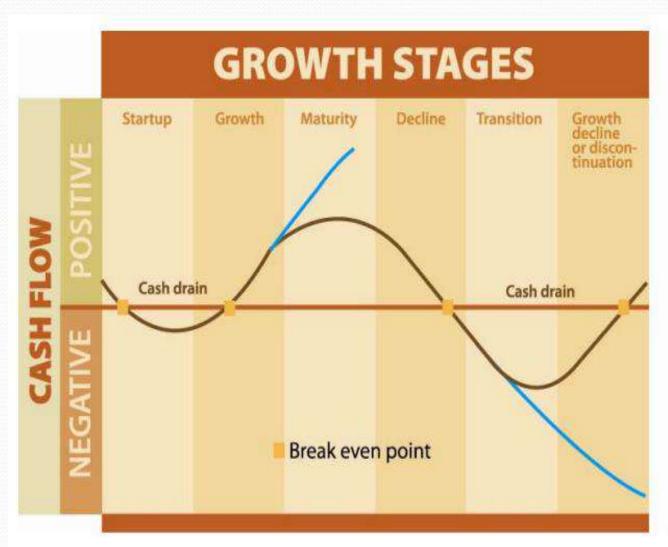

# Recognize that not all SMEs survive and grow

- Fundamental nature of SMEs Need to be the basis of policy formulation
- Entry/exit is in fact the strength of SMEs as a sector
- Regenerate business
- Facilitating bankruptcy
- Easing business start up

# **Facilitating Entry and Exit**

#### **Support for Entry**

- One-stop shop for SME start-up, licensing, registration, etc.
- Access to inexpensive or communal business facilities
- Access to educational services to improve SME entrepreneurs' knowledge of basic business operational, marketing and financial needs
- Expansion of corporate structures available to SME start-ups (LLC, SP, partnerships, limited life partnerships, cooperatives, S-Corporations, etc.)
- Easing tax system compliance for SMEs
- Access to finance: (i) credit data infrastructure; (ii) legal framework for secured transactions; and (iii) sustainable credit guarantee systems

#### **Support for Exit**

- Enhancement to bankruptcy mechanisms to include ability for reorganization rather than simply liquidation
- Ease of post-liquidation tax implications for former SME owners if obligations are forgiven
- Legal confirmation and clarity over separation of personal liability of SME owners from direct SME obligations
- Debtor-in-possession (DIP) finance or exit finance

## SMEs still need access to finance!

- Alternative Sources
  - Public Sector
  - Banking Sector
  - Nonbank Sector
  - Capital Market

## **SME Finance Policies**

### **Concerns on Subsidized Credit Schemes**

- Harmful for banking sector expansion to the market
- Limited impact
- Difficulty in targeting resulting in inefficiency/leakage
- Increased risk for bloating national budgets

## Impediments to Access to Finance

- Lack of appropriate financial infrastructure such as credit bureaus and credit registries
- Lack of appropriate financing for different stages of SME development

#### **Banking**

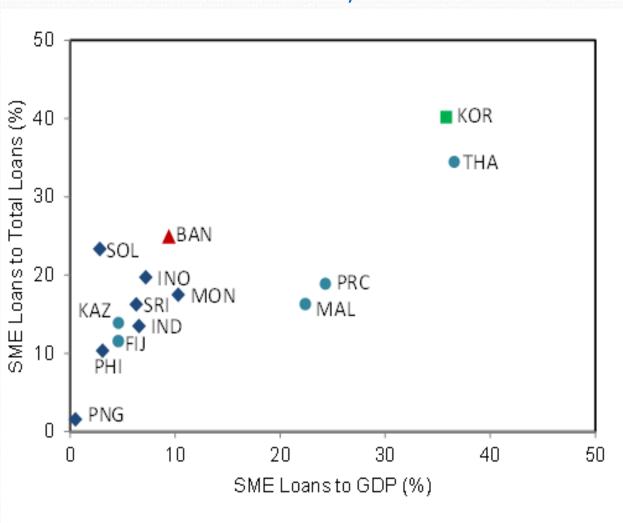

- Success/lack of success in loan applications
- Bureaucratic and burdensome application process
- Lack of collateral and scope of collateral
- High interest rates
- Mis-match of loan terms vs. financing needs
- Volatility of sales and thus income including seasonal changes

#### **NBFI/Capital Markets**

- Lack of corporate bond markets and small-cap equity access
- Underdeveloped NBFIs
- Lack of tailored financial products by financial institutions
- Push for use of non-local currency financing
- Lack of knowledge and understanding of available resources and products by NBFIs and capital markets

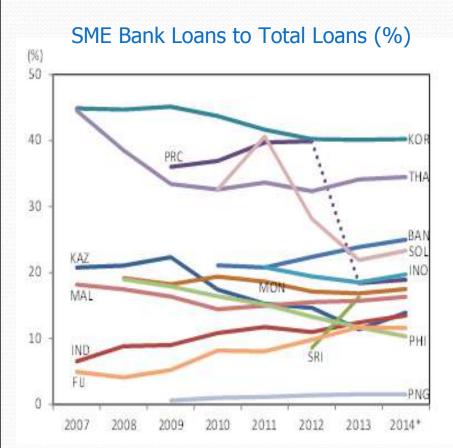

## **Access to Bank Credit**

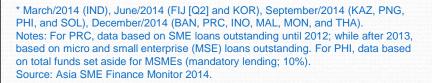

SME Loans, 2014

SMEs may also wish to consider **Crowdfunding** or **Cooperative Financing** as alternatives

## Changing the Global SME Scene

- Information and communication technology and utilization of e-commerce expanded outreach and access to information
- Development of global logistics industries is changing the division of labor at the global scale
- The pattern of international division of labor, or the global value chain is changing rapidly

### **Global Value Chains and SMEs**

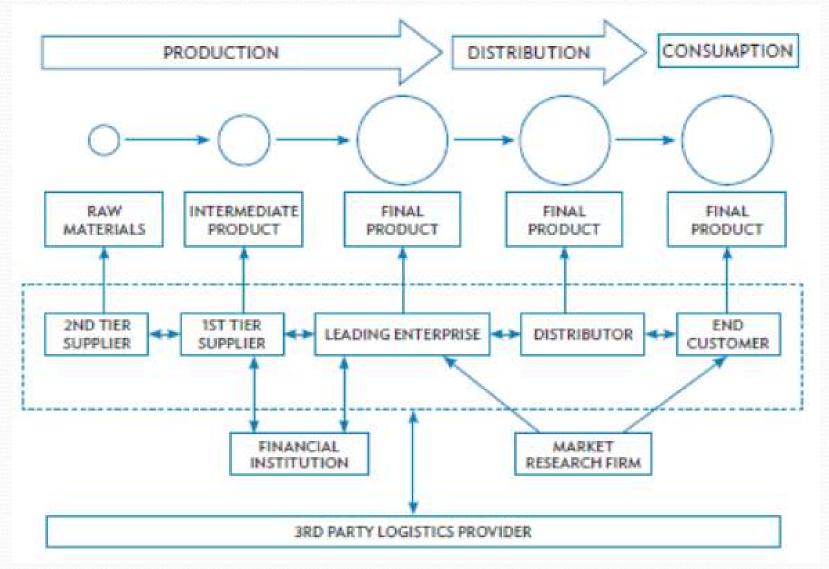

#### Global value chain (GVC)

- □ Value chain: full range of value-adding activities to bring a product or service through different stages of production. GVC: a value chain that operates in more than one economy. (APEC 2014)
- GVCs have evolved and spread in many business sectors, e.g., agribusiness, automotive, electronics, and handicraft.

#### **❖** SMEs in GVCs

- Material suppliers, parts and components suppliers, export-oriented manufacturers, subcontractors with multinational large firms, distributors, service sectors entering overseas markets, etc.
- Benefits: increased competitiveness, product quality enhanced by technology transfer, business expansion, and job creation.
- Barriers: labor market rigidity & regulations across the country; non-tariff barriers; poor infra for trade; SMEs' inability to meet quality, standards, specifications for products; managerial constraints; and insufficient financial resources.

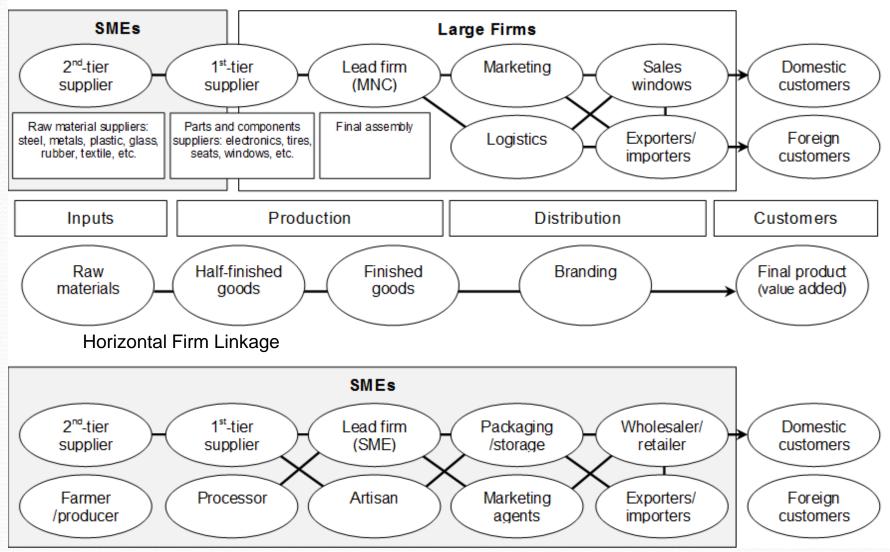

## Flow of Global Value Chains

# Case Study - Kazakhstan (1)

#### **SME Landscape**

- Registered SME in Kazakhstan: 1.54M in 2013 and 1.59M in 2014.
- In 2011, Government launched program "Increasing Competitiveness and Performance of SMEs"
  - Goal: Increased outputs of SMEs with target of 40% SME contribution to GDP by 2030 and 50% by 2015
  - ☐ The program have increased SME contribution to 43% GDP in 2013 (T9,020 billion (71.8% increase)
- ❖ In Sept 2014, "Private Entrepreneurship Law" of 2006 was amended, revision of SME definition, i.e, micro enterprise category, expanded size of the small firm segment, etc.

# Case Study- Kazakhstan (2)

# Policy Regulations and Programs Damu Entrepreneurship Development Fund

- Est. in 1997 as the a wholly owned subsidiary of national management holding company "Baiterek," originally act as SME Fund, allocates and manages government funds to facilitate SME financing.
- \* Has provided partial credit guarantees SMEs, as part of its SME support programs since 2010.
- Credit Guarantee Scheme: up to 70% for long term bank loans to SME, priority sectors manufacturing, medical services, education, and tourism.

# Case Study- Kazakhstan (3)

| * | Kazakhstan: MFF SME Investment Program, Tranche 3              |
|---|--|
|   | ☐ Approved: 15 December 2014 (additional financing: 24         |
|   | June 2015)   |
|   | ☐ Loan: USD 130 million (additional financing: USD 98 million) |
|   | ☐ ADB approved a multitranche financing facility (MFF) with    |
|   | an aggregate amount not exceeding \$500 million on 29          |
|   | September 2010.  |
|   | ☐ ADB's first sovereign operation that provides local          |
|   | currency (tenge) fixed interest rate financial                 |
|   | intermediation loans.  |
|   | ☐ Help Damu continue with the implementation of the            |
|   | government's Action Plan to increase access to medium          |
|   | term finance for SMEs.   |

# Case Study - Mongolia (1)

Credit Guarantee Fund of Mongolia (CGFM)

- Established in 2012. Began operations in 2013 as special state owned enterprise
- Provides partial credit guarantees to banks and non-banks' making SME loans
- ❖ By law, the CGFM can only offer one basic guarantee product (a 60% guarantee)
- Offers credit guarantees through-out Mongolia, even in remote regions
- ❖ Job creation has occurred on average in each credit guarantee issued. Yet, success has been impaired due to:
  - Lack of products
     Lack of trust of a government-run entity by the banking sector
     Limited knowledge of the program offerings and processes by SMEs,
  - banks and non-banks

    Limited technical capacity
  - ☐ Does not address lack of long-term financing

# Case Study - Mongolia (2)

ADB: Supporting the Credit Guarantee System for Economic Diversification and Employment Project

- ❖ ADB \$60 million loan, converted into local currency by MOF
- Supports Longer-term financing for SMEs by requiring at least 5 year loans
- Aims to revise law, build capacity, enhance outreach and expand credit guarantee product-set:
  - ☐ Products will also be issued to target specific needs of SMEs, such as:
    - Women entrepreneurs/SMEs
    - Non-urban based SMEs
- Loan funds will be placed as long-term "Time Deposits" into banks to partially fund each guarantee issued
- Through innovative recycling mechanism, ADB loan funds may support \$432 million of SME projects over the life of the ADB loan and support creation of 13,200 jobs

## Case Study- Viet Nam

#### **Viet Nam: Second SME Development Program**

- Approved: 23 October 2013
- ❖ Loan (ADF): USD 50 million
- Support the Government reforms efforts by:
  - (i) enhancing the policy and planning framework for SME development;
  - (ii) improving the efficiency of administrative systems in support of SME development and operations;
  - (iii) strengthening the regulatory framework for competition policy; and
  - (iv) enhancing SME access to finance.

## Case Study -Non-Sovereign Projects

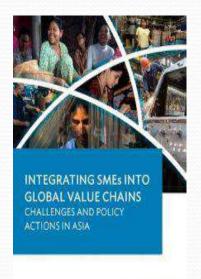

- Sri Lanka: Senior Unsecured Loan to Nations Trust Bank SME Finance Project
  - ☐ Approved: 6 February 2013
  - ☐ Loan (OCR): USD 15 million (5 year)
  - ☐ Help meet rising demand on SMEs for financing and give them better access to funding.
- Kyrgyz Republic: Senior Unsecured Loan in Kyrgyz Investment and Credit Bank SME Finance
  - ☐ Approved: 17 January 2012
  - ☐ Loan: USD 10 million
- Armenia: SME Finance Program
  - ☐ Approved: 22 November 2011
  - ☐ Loan: USD 65 million
  - Extend debt facilities to Armenian banks for on-lending to SMEs and increase the capacity of local banks to provide SMEs with longer-term financing to support SME growth and productivity
  - ☐ Participating banks: ACBA Credit Agricole, Ameriabank, Ardshininvestbank, and Inecobank.
