NAPC's POWERS AND FUNCTIONS

Coordinate with different national and local government agencies to assure full implementation of all social reform and poverty alleviation programs.

Coordinate all provinces in the Philippines in the formulation of social reform and poverty alleviation programs for their respective areas.

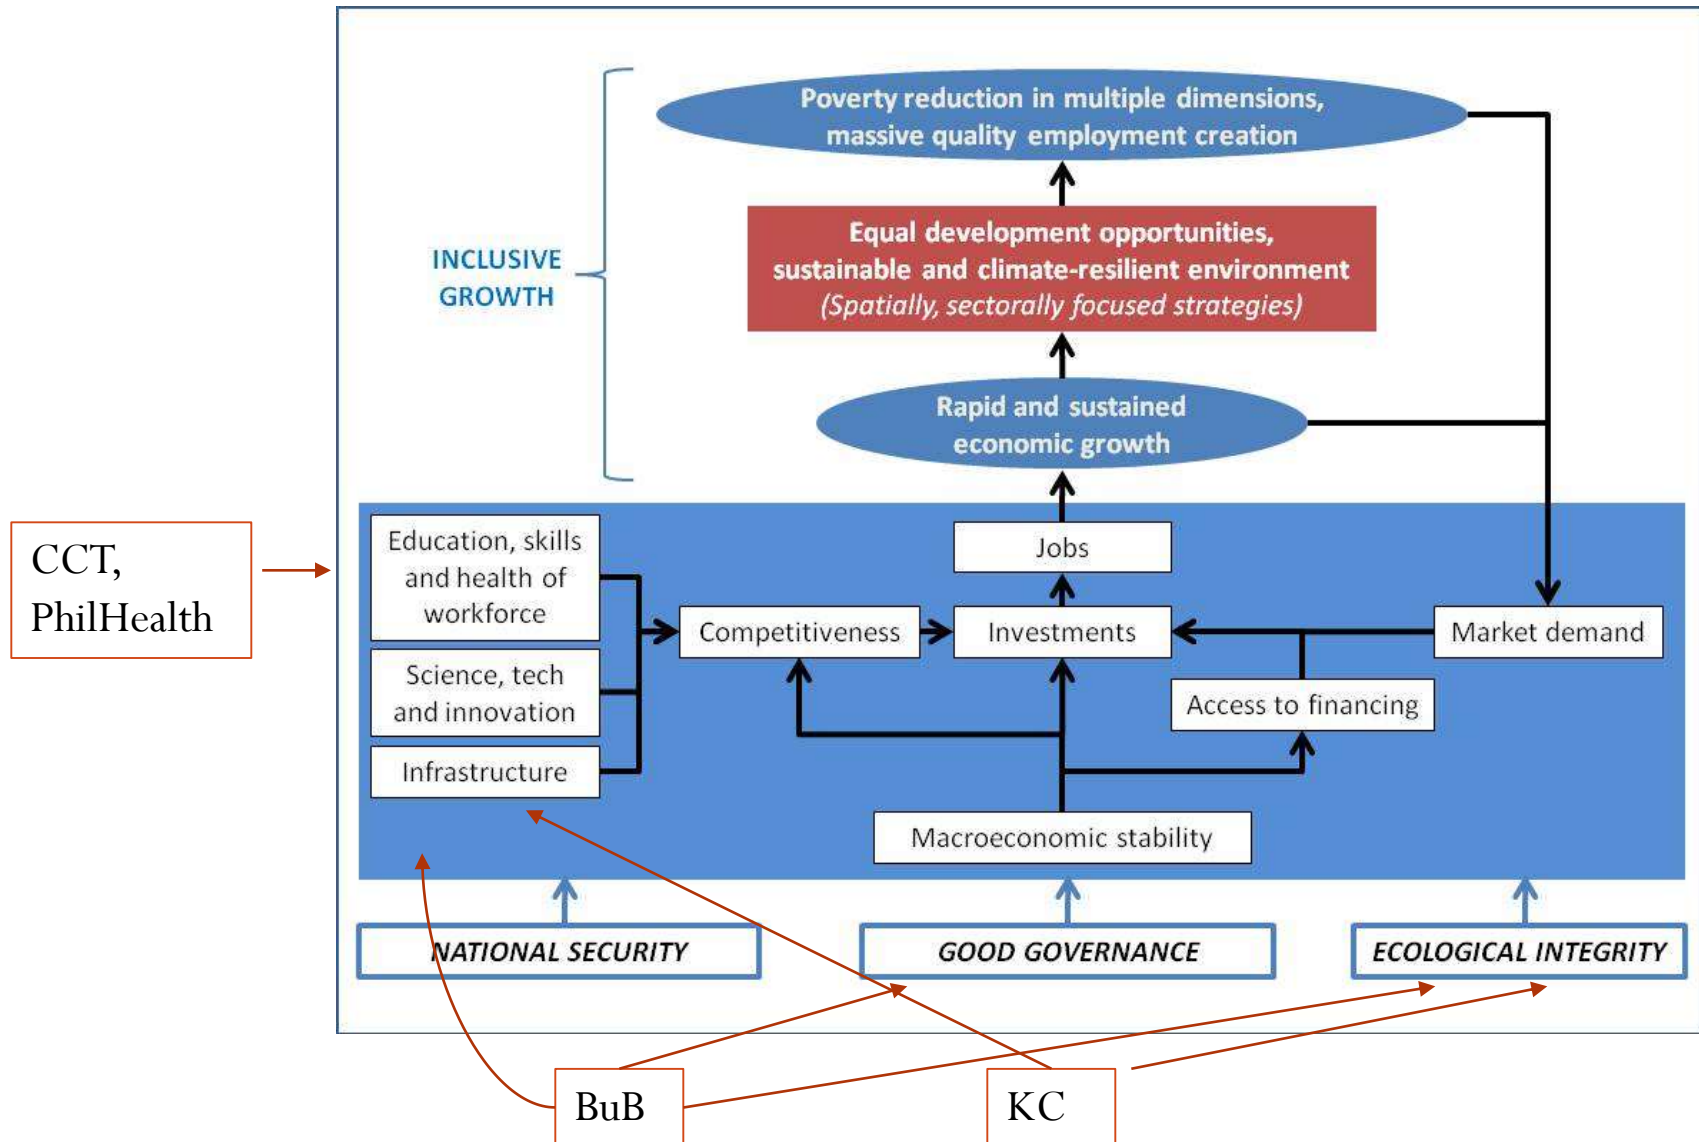

Ensure meaningful representation and active participation of the basic sectors.

PROGRAM THRUSTS

- **FOCUS ON THE POOREST OF THE POOR.** Interventions are focused on the poorest municipalities from the poorest regions and provinces.
- **PEOPLE'S PARTICIPATION AND EMPOWERMENT.** People's participation in governance can make poverty reduction work more effective.
- **RATIONALIZATION OF POVERTY REDUCTION PROGRAMS.** Poverty reduction strategy that locates poverty reduction within economic development planning, and bridges national and local poverty planning.

STRATEGIC FRAMEWORK FOR POVERTY ALLEVIATION

SOCIAL PROGRAMS IN THE PHILIPPINES

- **Conditional Cash Transfers** – The Pantawid Pamilyang Pilipino Program or 4Ps is patterned after the conditional cash transfer (CCT), provides cash grants to beneficiaries provided they comply with the set of conditions required by the program. As of August 2015, 4,353,597 registered households in all 17 regions.

To fulfill the country's commitment to meet the Millennium Development Goals, namely:

Set of Conditionality

Education

- 3- to 5-year-old children must attend daycare or preschool classes at least 85 percent of the time;
- 6- to 14-year-old children must enroll in elementary or high school and must attend at least 85 percent of the time

P3,000 per year or P300 per month per child (elementary) for 10 months a year and; P5,000 per year or P500 per month per child (high school) for 10 months a year

**maximum of 3 children per household*

Health

- Pregnant women must avail pre- and post-natal care and be attended during childbirth by a trained health professional;
- 0-5 year old children must receive regular preventive health check-ups and vaccines;
- 6- to 14-year-old children must receive deworming pills twice a year

* P6,000 per year or P500 per month per household

**Other
Condition :**

Parents must attend Family Development Sessions (FDS) monthly

Impact

CCT is delivering on its objectives: Keeping poor children in school and healthy:

Enrollment in school

Increased by 5 % (Elementary)

Increased by 7 % (Secondary)

Health

Prenatal and Postnatal care increased by 10 %

Delivery of babies in health facilities by skilled health professionals increased by 20 %

Children intake of vitamin A and iron Increased by 12 %

Increased weight monitoring visits to health facilities by 18 %

Impact on Poverty

- Poverty Monitoring
 - Income-based measures of poverty
 - Multi-dimensional lens of poverty
- Poverty Incidence (2015): 26.3%
 - This is 1.6% lower compared to the 2012 first semester poverty statistics.

Conclusion

- Indicators pointing to the right direction
 - Short term indicators appear to be achieved; minimal achievement on long term outcome
- Programs are still work in progress
 - Continuous improvement
 - Budget for M&E be embedded in a project (2015 MOA between NEDA and DBM)
 - Is the scale of the program minimal, resulting to minimal poverty reduction?

SOCIAL PROGRAMS IN THE PHILIPPINES

- Philhealth** – is a Government-Owned and Control Corporations (GOCCs), to implement the National Health Insurance Program of the country towards Universal Health Care and provide financial risk protection to all Filipinos accessing healthcare, prioritizing the indigents, women and children, elderly and PWDs.
